

GE PROTIMETER MOISTURE DETECTION

HYGROTRAC KIT INCLUDES
 10 wireless sensors
 1 data collection gateway
 Ethernet cable
 Phone cable
 Power supply
 Complete instructions
 Custom hard case

MMS PLUS INCLUDES
 QuikStick probe (Hygrostick probes also available)
 QuikStick extension lead
 Heavy-duty pin extension lead
 Surface temperature sensor
 5-inch deep wall probes
 Calibration check device
 Spare pins
 Data download software and data cable
 Nylon carry pouch
 Instructions

A GE HYGROTRAC REMOTE MONITORING SYSTEM

Collect, view and document jobsite drying information remotely and view this data from any Web browser.

Easy to set up – complete instructions available at hygrotrac.dri-eaz.com.

- » Get instant temp or RH alerts via e-mail or text
- » Automatically document job progress – helps to manage liability!
- » Allocate techs and equipment exactly when and where they're needed
- » Manage multiple jobs and long travel times easier and more efficiently

ITEM #F358

B HYGROTRAC SENSOR EXTENSION KIT

Extend the capability of your HygroTrac Sensor – collect the wettest moisture readings over three points in a span up to 6 ft.

ITEM #F395

C GE PROTIMETER MMS PLUS

Three-in-one moisture measurement

- » Take pin and pinless measurements to find and measure critical, hidden moisture
- » Measure full-range RH, temperature, dew point, GPP, and moisture content
- » Includes data logger to store and download up to 1,000 measurements
- » Works with Hammer Probe (see "I")
- » Measures 0–100% RH and 32–122° F with QuikStick probe (also compatible with Hygrostick)

ITEM #F337

D GE PROTIMETER RESTORATION KIT

The ultimate combo – two tools in one

Get the professional-grade MMS Plus meter and Hammer Probe in one package. MMS Plus is three meters in one, providing hygrometer, pin and pinless measurement modes. Data logger can store up to 1,000 measurements. Plug into the Hammer Probe (cable included) and easily measure moisture in structural materials.

ITEM #F355

E RESTORATION KIT CASE

Rugged ABS plastic case with pre-fitted foam inserts. Organizes and protects your valuable equipment.

ITEM #F359

F GE PROTIMETER TECHNICIAN'S KIT

Three tools in one kit – case included

Get the Psyclone (g), Surveymaster (h) and Hammer Probe (i) together in a durable ABS case. Equips the technician with everything required to read ambient conditions and measure moisture content of materials.

ITEM #F401

G GE PROTIMETER PSYCLONE

Fast-acclimating thermo-hygrometer

Efficiently calculates GPP, relative humidity, temperature, dew point and more – reduces error and saves time.

ITEM #F381

H GE PROTIMETER SURVEYMASTER SM

Two ways to search and measure hidden moisture

Provides pin and pinless measurements. Use to distinguish sub-surface from surface moisture and zero in on problem areas. Color-coded LCD and LED display. Also works with Hammer Probe (i).

ITEM #F281

I GE PROTIMETER HAMMER PROBE

Precise moisture readings at depth

Determine moisture content in subfloors, frame materials and drywall. Strong, non-stick coated pins provide long service, and increased slide weight and stroke length allows the unit to penetrate easily up to a depth of 1.38 in. (35 mm). Stainless steel shaft, back stop and base, and built-in wrench for easy pin replacement.

ITEM #F309

J GE PROTIMETER AQUANT

Easy non-invasive moisture measurement

Ideal for quick detection of moisture up to 1 in. below surfaces, including hard surfaces such as vinyl and tile. Provides fast and highly accurate readings – unit is not adversely affected by surface condensation. LCD and LED display.

ITEM #F320

K GE PROTIMETER QUIKSTICK™

Fast, reliable measurements

The new QuikStick is a new and improved sensor designed to enhance the performance of newer MMS Plus (F337) models.

Note: Compatible with certain meters only. Visit the QuikStick product page in the Instruments section at www.dri-eaz.com.

ITEM #F394

DRI-EAZ HYDROSENSOR® I & II

Save your knees and your back

Quickly map the migration of moisture in carpet and pad. Both models feature rugged stainless steel tubing and retractable points with a 31 in. reach. HydroSensor II includes a telescoping handle that collapses to 21 in. for easy toolbox storage.

L HYDROSENSOR I
ITEM #F245

M HYDROSENSOR II
ITEM #F251

N DRI-EAZ DIGITAL PSYCHROMETRIC CALCULATOR

For instant calculations on the go

Take the guesswork out of finding GPP, thirst, dew point and more. Includes seven calculations unique to restoration. Also includes equipment usage calculations and C° or F° options. Convenient pocket size.

ITEM #F267 (BOX OF 5)
